

Retransmission rate is greater than one due to packet drops.

Changing the drop probabilities:

Drop probability : 0.0001

Packet length	Retransmission Ratio	RTT average(micro s)
128B	1.05	112.15
1024B	1.09	108.36

Drop probability : 0.00000001

Packet length	Retransmission Ratio	RTT average(micro s)
128B	1.0	104.06
1024B	1.0	105.63
